

Discretionary Permits/Actions Application Form

303 East B Street, Ontario, California 91764 Phone: 909.395.2036 / Fax: 909.395.2420

Dear Applicant:

In an effort to improve customer service and ensure development projects are processed as quickly as possible, the Planning Department finds it necessary to remind its clients that a complete application submittal is crucial to the review process. In the past, accepting incomplete applications has led to errors and time delays at the end of the review process. I do not want this to happen to you.

Consequently, at the time of application submittal, the Planning Department will only accept complete applications. To this end, at the time of application submittal, Planning and Engineering Department staff will be reviewing all submitted applications, plans, and information, for compliance with the requirements of this application packet. All items applicable to your application must be provided before the Planning Department staff can accept your application for filing. I suggest that you schedule a pre-submittal review of your application, plans, and information, for compliance with these minimum requirements prior to submitting your application, as the counter staff does not have the authority to waive these requirements. Failure to schedule a pre-submittal review may result in delays in the submittal of your application. Call the Planning Department at (909) 395-2036 to schedule an appointment.

Please remember that failure to provide all of the required plans and information will most likely result in significant time delays in the processing of your application. If you have any questions regarding the necessity of any particular item requested by this application packet, please feel free to contact the Planning Department counter supervisor to discuss your questions.

The Planning Department looks forward to a continued efficient and professional relationship with you in the future. If you have any questions regarding the submittal of your application or the application review process, please feel free to contact the Planning Department at (909) 395-2036.

Respectfully,

A handwritten signature in blue ink, appearing to read "H. Noh".

Henry K. Noh
Planning Director

ATTENTION!

The City of Ontario strives to provide you with efficient and effective service in a businesslike manner. We are committed to the principle that every interaction you have with the City must be based on honesty and integrity.

City employees are prohibited by law from soliciting or accepting money, services, or gifts of any kind in connection with the discharge of their duties.

If you are approached or are aware of any violation of this policy, please immediately contact any of the following:

- Scott Ochoa, City Manager (909) 395-2396 or sochoa@ontarioca.gov
- Mike Lorenz, Police Chief (909) 395-2710 or mlorenz@ontarioca.gov
- Ethics Line (800) 500-0333

TOTAL					

Site Area:

Adjusted Gross Acreage (Parcel size(s) prior to any proposed dedications): _____

HOUSING ELEMENT AVAILABLE LAND INVENTORY CERTIFICATION

Instructions:

- (1) This statement must be completed in conjunction with all development project applications.
- (2) The applicant shall consult the most current list of properties shown on the Housing Element Available Land Inventory (see Table A-3: Available Land by Planning Area), and shall specify whether or not the proposed project is located on a site included on the list. The current list can be found on the Planning Departments "Applications and Documents" web page at <https://www.ontarioca.gov/government-departments-development-planning/applications-and-documents>.

I, the undersigned, hereby state that I am the applicant, owner, officer, of the property(ies) for which this development project application is submitted, and do hereby state that I have consulted the list of Available Land Inventory sites on file in the City of Ontario Planning Department, and further state that the property is, is not, located on a property identified on said list.

If the project is listed on the Available Land Inventory, the proposed project does, does not, meet the minimum number of units specified in the Available Land Inventory.

HAZARDOUS WASTE/SUBSTANCE CERTIFICATION

Instructions:

Pursuant to the requirements of Government Code Section 65962.5, before an application for a development project may be accepted by the City, the applicant shall first consult the lists compiled by the Department of Toxic Substances Control, and sign a statement indicating whether the project is located on a site that is included on any of the lists. The lists compiled by the Department of Toxic Substances Control include the following:

- (1) All hazardous waste facilities subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code;
- (2) All land designated as hazardous waste property or border zone property pursuant to former Article 11 (commencing with Section 25220) of Chapter 6.5 of Division 20 of the Health and Safety Code;
- (3) All information received by the Department of Toxic Substances Control pursuant to Section 25242 of the Health and Safety Code on hazardous waste disposals on public land;
- (4) All sites listed pursuant to Section 25356 of the Health and Safety Code;
- (5) All public drinking water wells that contain detectable levels of organic contaminants and that are subject to water analysis pursuant to Section 116395 of the Health and Safety Code;
- (6) All underground storage tanks for which an unauthorized release report is filed pursuant to Section 25295 of the Health and Safety Code;
- (7) All solid waste disposal facilities from which there is a migration of hazardous waste and for which a California regional water quality control board has notified the Department of Toxic Substances Control pursuant to subdivision (e) of Section 13273 of the Water Code;
- (8) All cease and desist orders issued after January 1, 1986, pursuant to Section 13301 of the Water Code, and all cleanup or abatement orders issued after January 1, 1986, pursuant to Section 13304 of the Water Code, that concern the discharge of wastes that are hazardous materials; and
- (9) All solid waste disposal facilities from which there is a known migration of hazardous waste.

I, the undersigned, hereby state that I am the applicant, owner, officer, of the property(ies) on which this application is submitted ("Project Site"), and state that I have consulted the list compiled by the Department of Toxic Substances Control pursuant to the requirements of Government Code Section 65962.5. I further state that the Project Site is, is not, identified on said lists.

PROJECT IMPACTS (attach additional sheets to respond to any "yes" answers)

<u>Questions</u>	<u>Yes</u>	<u>No</u>
(1) Will the project result in a substantial alteration of any hill or to ground contours?	<input type="checkbox"/>	<input type="checkbox"/>
(2) Will the project result in a change in scenic views or vistas from existing residential areas or public lands?	<input type="checkbox"/>	<input type="checkbox"/>
(3) Will the project result in a change in pattern, scale or character of the general area of the project?	<input type="checkbox"/>	<input type="checkbox"/>
(4) Will the project result in significant amounts of solid waste or litter?	<input type="checkbox"/>	<input type="checkbox"/>
(5) Will the project result in a change in dust, ash, smoke, fumes or odors in the vicinity?	<input type="checkbox"/>	<input type="checkbox"/>
(6) Will the project result in a change in stream or ground water quality or quantity, or alteration of existing drainage patterns?	<input type="checkbox"/>	<input type="checkbox"/>
(7) Will the project result in a significant change in existing noise or vibration levels in the vicinity?	<input type="checkbox"/>	<input type="checkbox"/>
(8) Will the project result in a site on filled land or on a slope of 10% percent or more?	<input type="checkbox"/>	<input type="checkbox"/>
(9) Will the project result in the use of potentially hazardous materials, such as toxic substances, flammables or explosives?	<input type="checkbox"/>	<input type="checkbox"/>
(10) Will the project result in a substantial change in demand for municipal services (police, fire, water, sewage, etc.)?	<input type="checkbox"/>	<input type="checkbox"/>
(11) Will the project substantially increase fossil fuel consumption (electricity, oil, natural gas, etc.)?	<input type="checkbox"/>	<input type="checkbox"/>
(12) Does the project have any relationship to a larger project or series of projects?	<input type="checkbox"/>	<input type="checkbox"/>

ENVIRONMENTAL SETTING

Describe the project site as it exists before the project, including information on topography, soil stability, plants and animals, any cultural, historical or scenic aspects. Describe any existing structures on the site, and the use of the structures.

Discretionary Permits/Actions Application Form — Environmental Information Form

Describe the surrounding properties, including information on plants and animals and any cultural, historical or scenic aspects. Indicate the type of land use (residential, commercial, etc.), intensity of land use (single-family residential, apartments, shopping center, office building, etc.), and the scale of development (height, frontage, setback, rear yard, etc.)

ENVIRONMENTAL INFORMATION CERTIFICATION

I, the undersigned, hereby certify that the statements and information provided in this Environmental Information Form, and in any attached exhibits, present the data and information required for this evaluation to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief.

Discretionary Permits/Actions Application Form — Minimum Filing Requirements Checklist

303 East B Street, Ontario, California 91764 Phone: 909.395.2036 / Fax: 909.395.2420

BILLBOARD RELOCATION AGREEMENT

The minimum requirements for filing a request for Billboard Relocation Agreement approval are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *General Application Form* and filing fees.
- Completed *Environmental Information Form*.
- Provide a complete description of the proposed agreement.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

CONDITIONAL USE PERMIT

The minimum requirements for filing a Conditional Use Permit application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- The project description shall include a complete description of the proposed use, including, but not limited to, services proposed, hours of operation, number of employees, number of seats provided, etc.
- Completed *Environmental Information Form*.
- A set of plans, including a site utilization plan, site plan, floor plan(s) and elevations (*if exterior changes are proposed*). (**Note: Refer to the [Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements](#).**)
- Photographs of the site (interior & exterior) and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

DEPARTURES FROM DEVELOPMENT STANDARDS

The minimum requirements for filing a request for approval of certain departures from Development Code standards are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

1. Administrative Exceptions—The minimum requirements for filing an Administrative Exception application are listed below. An application that does not include the following plans and information will not be accepted for processing.

- Completed *Application Form* and filing fees.
- A complete description of the proposed administrative exception, including, but not limited to, the improvements proposed for the property, the Code requirement not being met, and provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

A. The approval of the Administrative Exception is necessary to the production of a comprehensive development, incorporating an enhanced environment and architectural excellence (e.g., appropriate variety of structure placement and orientation opportunities, high quality architectural design, increased amounts of landscaping and open space, improved solutions to the design and placement of parking facilities, etc.) than would normally be possible under the strict application of the applicable development standards;

B. The approval of the Administrative Exception will allow for the inclusion of site, architectural, or landscape features that could not otherwise be incorporated into the design of the project under the strict application of the provisions of the applicable development standards;

C. The approval of the Administrative Exception will not adversely affect the overall quality of development on the project site and will not adversely affect neighboring properties; and

D. The proposed Administrative Exception is consistent with the goals, policies, plans, and exhibits of the Vision, Policy Plan (General Plan), and City

Council Priorities components of The Ontario Plan, and the purposes of any applicable Specific Plan or Planned Unit Development, and the purposes of the Development Code.

- A set of plans prepared in accordance with the *Minimum Plan Preparation & Plan Contents Checklist*, including a site utilization plan, site plan and floor plan(s). *(Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements.)*
- Photographs of the site and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

2. Minor Variances—The minimum requirements for filing a Minor Variance application are listed below. An application that does not include the following plans and information will not be accepted for processing.

- Completed *Application Form* and filing fees.
- A complete description of the proposed Minor Variance, including, but not limited to, the improvements proposed for the property, the Code requirement not being met, and provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

A. The strict or literal interpretation and enforcement of the specified regulation would result in practical difficulty or unnecessary physical hardship inconsistent with the objectives of the development regulations contained in this Development Code;

B. There are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to other properties in the vicinity and in the same zoning district;

C. The strict or literal interpretation and enforcement of the specified regulation would deprive the applicant of privileges enjoyed by the owners of other properties in the same zoning district;

D. The granting of the Minor Variance will not be detrimental to the public health, safety or welfare, or be materially injurious to properties or improvements in the vicinity; and

E. The proposed Minor Variance is consistent with the goals, policies, plans and exhibits of the Vision, Policy Plan (General Plan), and City Council Priorities components of The Ontario Plan, and the purposes of any applicable specific plan or planned unit development, and the purposes of this Development Code.

- A set of plans prepared in accordance with the *Minimum Plan Preparation & Plan Contents Checklist*,

including a site utilization plan, site plan and floor plan(s). *(Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements.)*

- Photographs of the site and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

3. Variances—The minimum requirements for filing a Variance application are listed below. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- A complete description of the proposed Variance, including, but not limited to, the improvements proposed for the property, the Code requirement not being met, and provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

A. The strict or literal interpretation and enforcement of the specified regulation would result in practical difficulty or unnecessary physical hardship inconsistent with the objectives of the development regulations contained in this Development Code;

B. There are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to other properties in the vicinity and in the same zoning district;

C. The strict or literal interpretation and enforcement of the specified regulation would deprive the applicant of privileges enjoyed by the owners of other properties in the same zoning district;

D. The granting of the Variance will not be detrimental to the public health, safety or welfare, or be materially injurious to properties or improvements in the vicinity; and

E. The proposed Variance is consistent with the goals, policies, plans and exhibits of the Vision, Policy Plan (General Plan), and City Council Priorities components of The Ontario Plan, and the purposes of any applicable specific plan or planned unit development, and the purposes of this Development Code.

- A set of plans prepared in accordance with the *Minimum Plan Preparation & Plan Contents Checklist*, including a site utilization plan, site plan and floor plan(s). *(Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements.)*

- Photographs of the site and surrounding area.

Discretionary Permits/Actions Application — Minimum Filing Requirements Checklist

- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

DEVELOPMENT PLAN

The minimum requirements for filing a Development Plan application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees (*Note: If the Engineering Department determines that review by the San Bernardino County Flood Control District is necessary, the applicant shall submit a check to the Engineering Department in the amount of \$520, made payable to San Bernardino County Flood Control District*).
- Completed *Environmental Information Form*.
- A complete set of plans prepared in accordance with the *Minimum Plan Preparation & Plan Contents Checklist*, including the following plans:
 - Site Utilization Plan;
 - Site Plan;
 - Floor Plan(s);
 - Roof Plan(s);
 - Exterior Building Elevations;
 - Building Perspective Drawings (providing these drawings are not required; however, providing them is highly encouraged);
 - Conceptual Sign Plans;
 - Conceptual Grading/Drainage & Preliminary Water Quality Management Plan (PWQMP) Compliance Plan;
 - Utility Systems Map;
 - Conceptual Landscape Plan;
 - Solid Waste Handling Plan; and
 - Integrated Waste Management Report (required for all projects that are not using standard residential automated can service).

(Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for minimum plan preparation requirements.)

- One (1) copy of a Preliminary Water Quality Management Plan (PWQMP).
- One (1) copy of an Infiltration Study, which demonstrates that the proposed Water Quality Best Management Practices (BMPs) will adequately draw down the design storm event volume.
- One (1) full sized set of colored plans, to include illustrative site plan, signage plan, landscape plan and building elevations, and any necessary cross-sections or perspectives. Plans shall not be mounted on boards.

- One (1) color and materials samples mounted on an 8½"X11" board (Note: Larger samples may be required).
- Photographs of the site and surrounding area.
- Completed *Utility Devices Assessment Form*.
- For projects within the following specific plan areas, provide approval by the property owner association or approving agent:
 - California Commerce Center Specific Plan;
 - California Commerce Center North Specific Plan; and
 - Centrelake Specific Plan.
- Completed *Greenhouse Gas Emissions CEQA Thresholds and Screening Tables - Ontario Development Code Reference H (Community Climate Action Plan)*.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

EXTENSION OF LEGAL NONCONFORMING STATUS

The minimum requirements for filing an Extension of Legal Nonconforming Status application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- Completed *Environmental Information Form*.
- A complete description of the proposed Extension of Legal Nonconforming Status, including, but not limited to, the improvements proposed for the property, the Code requirement not being met, and provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

(1) The applicant has made a good faith effort to keep the nonconforming status;

(2) A physical and/or economic hardship has prevented the nonconforming use from being reestablished prior to the expiration date;

(3) Approving the extension will not adversely affect the character, integrity, or value of surrounding properties;

(4) Approving the extension will not adversely affect the character, integrity, or general welfare of the neighborhood; and

(5) The extension will not adversely impact the public health, safety, or welfare of the City's residents.

- Photographs of the site and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

FAIR HOUSING & REASONABLE ACCOMMODATION

The minimum requirements for filing a Fair Housing and Reasonable Accommodation application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- Completed *Environmental Information Form*.
- A complete description of the proposed Fair Housing and Reasonable Accommodation, including, but not limited to, the improvements proposed for the property, the Code requirement not being met, and provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.
 - A.** The persons who will use the subject property are protected under federal and state fair housing laws;
 - B.** The requested exception is necessary to make specific housing available to a person who will occupy the subject property and who is protected under federal and state fair housing laws;
 - C.** The requested exception will not impose an undo financial or administrative burden upon the City; and
 - D.** The requested exception will comply with all applicable Building and Fire Codes and will not result in a fundamental alteration of the planning, zoning and development laws and procedures of the City.
- Photographs of the site and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

HISTORIC PRESERVATION

The minimum requirements for filing a request for approval of certain historic preservation applications are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the

following plans and information will not be accepted for processing:

1. Certificate of Appropriateness—The minimum requirements for filing a Certificate of Appropriateness application are listed below. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- Completed *Environmental Information Form*.
- Provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.
 - A.** The proposed alteration, restoration, relocation, or construction, in whole or in part, will not:
 - (1) Detrimentially change, destroy, or adversely affect any significant architectural feature of the resource;
 - (2) Detrimentially change, destroy, or adversely affect the historic character or value of the resource;
 - (3) Will be compatible with the exterior features of other improvements within the district;
 - (4) Adversely affect or detract from the character of the district, or
 - B.** The applicant has obtained a Certificate of Economic Hardship, in accordance with Development Code Section 4.02.055.
- A complete of plans, including a site plan, floor plan(s), elevations and conceptual landscape plan(s). (*Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements.*)
- One (1) set of colored plans, if applicable, to include a detailed site plan, illustrative building elevations, a conceptual landscape plan and any necessary cross-sections."
- Photographs of the site (interior & exterior) and surrounding area.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

2. Demolition—The minimum requirements for filing a Demolition application are listed below. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- A complete Certificate of Appropriateness application for the proposed replacement structure(s) and, if necessary, a complete Development Plan application.

Provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

A. The proposed demolition, in whole or in part, is necessary because:

(1) All efforts to restore, rehabilitate, and/or relocate the resource have been exhausted;

(2) Restoration/rehabilitation is not practical because the extensive alterations required would render the resource not worthy of preservation;

(3) Failure to demolish the resource would adversely affect or detract from the character of the District; or

B. The applicant has obtained a Certificate of Economic Hardship, in accordance with Development Code Section 4.02.055.

Photographs of the site (interior & exterior) and surrounding area.

Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

SPECIFIC PLAN MINOR AMENDMENT

The minimum requirements for filing a Specific Plan Minor Amendment application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees.
- Completed *Environmental Information Form*.
- Provide a detailed description of the proposed Specific Plan Minor Amendment, which fully explains the proposed departures from the strict application of the development standards and/or design guidelines established by the Specific Plan, and how the requested departure(s) is/are in the interest of furthering the goals and policies of the Specific Plan and The Ontario Plan.
- Provide specific plan hydraulic studies and subarea master plans, including a Potable Water and Recycled Water Hydraulic Study and a Sewer Subarea Master Plan (SSMP) for amendments that propose any change in the type of land use, amount of land use, or location of land use (including density swaps, etc.). The analyses shall include the whole Specific Plan and may extend beyond the limits of the Specific Plan if land use changes create deficiencies in other parts of the utility system.

Provide supporting reasons for each of the below-listed statements. The application will be denied if one or more of the below-listed statements cannot be clearly established.

(1) The proposed Specific Plan Minor Amendment is consistent with the goals, policies, plans and exhibits of the Vision, Policy Plan (General Plan), and City Council Priorities components of The Ontario Plan, and the specific plan;

(2) The proposed Specific Plan Minor Amendment is reasonable and beneficial, and in the interest of good planning practice; and

(3) The proposed Specific Plan Minor Amendment will not adversely affect the harmonious relationship with adjacent properties and land uses.

Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

TENTATIVE TRACT OR PARCEL MAP

The minimum requirements for filing a Tentative Tract Map or Tentative Parcel Map application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Completed *Application Form* and filing fees (*Note: If the Engineering Department determines that review by the San Bernardino County Flood Control District is necessary, the applicant shall submit a check to the Planning Department in the amount of \$520, made payable to San Bernardino County Flood Control District*).
- Completed *Environmental Information Form*.
- A Preliminary Title Report (prepared no more than 30 days prior to the application submittal date).
- A complete of plans prepared in accordance with the *Minimum Plan Preparation & Plan Contents Checklist*, including the following plans:
 - Site Utilization Plan;
 - Tentative Tract or Parcel Map; and
 - Utility Systems Map (USM).

(Note: Refer to the Plan Preparation Guidelines & Minimum Plan Contents Checklist for the minimum plan preparation requirements.)

Provide in-tract hydraulic studies and sub area master plan, including a Potable Water and Recycled Water Hydraulic Study and a Sewer Subarea Master Plan (SSMP) for the land use and in-tract public systems. The analysis shall include the update and expand upon applicable Specific Plan studies. If Specific Plan studies

have not been performed, then the map shall submit Specific Plan studies in addition to the in-tract studies. All analyses may extend beyond the limits of the tract if the tract land use creates deficiencies in other parts of the utility system.

- For Vesting Tentative Tract or Parcel Maps, provide the below-listed information required for *Subdivision—Vesting Tentative Tract Maps and Vesting Tentative Parcel Maps*.
- Photographs of the site and surrounding area.
- Completed *Greenhouse Gas Emissions CEQA Thresholds and Screening Tables*.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

VESTING TENTATIVE TRACT OR PARCEL MAPS

In addition to the above-listed requirements for filing a for filing a Tentative Tract Map or Tentative Parcel Map application, comply with the minimum requirements for filing a Vesting Tentative Tract Map or Vesting Tentative Parcel Map application, listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. Each item below shall be labeled accordingly and must be in **PDF file format**. An application that does not include the following plans and information will not be accepted for processing:

- Comply with the requirements for *Subdivision—Tentative Tract Map or Tentative Parcel Map*, listed above.
- Comply with the requirements for *Development Plans*, listed above.
- A copy of the Covenants, Conditions and Restrictions (CC&Rs) and filing fees.
- A set of Grading and Drainage Plans.
- A set of Geological Hazards Report.
- A set of Erosion and Sediment Control Plan.
- A copy of Engineering Cost Estimate on City forms.
- A set of Potable Water Demand Calculations (include water demand calculations showing low, average and peak water demand in GPM for the proposed development, and proposed water meter size).
- A set of Recycled Water Plans (include water demand calculations showing low, average and peak water demand in GPM for the proposed development, the proposed water meter size, and an exhibit showing the area being irrigated by each recycled water meter).
- A set of Water Demand Calculations.
- A set of Street Improvement Plans.
- A set of Public Water Plans.

- A set of Public Storm Drain Plans (if applicable).
- A set of Traffic Signal Plans (if applicable).
- A set of Street Light Plans (if applicable).
- A set of Signing and Striping Plans.
- A copy of Hydrology Study and Drainage Analysis.
- A copy of Water Quality Management Plan (WQMP) and Storm Water Pollution Prevention Plan (SWPPP).
- Completed *Greenhouse Gas Emissions CEQA Thresholds and Screening Tables*.
- Any other plans or information that the Planning Director deems necessary to facilitate processing of the application.

TIME EXTENSION

The minimum requirements for filing a Time Extension application are listed below and shall be submitted through our Citizen Portal Access website at <https://automation.ontarioca.gov/onlinePermits>. An application that does not include the following information will not be accepted for processing:

- Completed *Application Form* (pages 1 through 3, only) and filing fees.

GRAPHIC SUBMITTAL REQUIREMENTS

All graphic files shall be provided in both PDF format. If you have any questions regarding the graphic submittal requirements, please contact the Planning Department at (909) 395-2036.

Required CDs or flash drives shall contain the following:

Colored Landscape Plan

- A. Turn off drawing program layers for topographical lines, dimension lines, utility lines, and power poles.
- B. Plans should be oriented with North pointing to top of page.
- C. Crop to plan only (no borders, company titles, logos, etc.).
- D. Show building footprints in color, with bold outline.
- E. Show existing buildings, if applicable, in different color.

Color Elevations/Color Perspectives/Color Signs

- A. Crop to elevations/perspectives only.
- B. Provide direction on elevation/perspective (north, east, south, and west).
- C. Turn off all small, unreadable text.
- D. Turn off material indicators.

Graphic Format

- A. Reduce physical size of drawings. Example: 36" x 48" reduced to 18" x 24".
- B. Resolution should be large enough to allow text to be clearly read.

Discretionary Permits/Actions Application Form — Plan Preparation Guidelines and Minimum Plan Contents Checklist

303 East B Street, Ontario, California 91764 Phone: 909.395.2036 / Fax: 909.395.2420

PLAN PREPARATION GUIDELINES

Plans not conforming to the following guidelines will not be accepted for processing:

- All plans shall be prepared in **PDF file format**.
- Development Plans shall be prepared by an architect or civil engineer licensed to practice in the State of California.
- Tentative Tract or Parcel Maps shall be prepared by a licensed land surveyor or registered civil engineer authorized to practice land surveying in the State of California.
- All plans/maps shall be clearly labeled with sheet title, project name and project location.
- A one-sheet master plan shall be provided where the detailed plan/map cannot contain the entire project on a single sheet.
- All plans shall be clear and legible.

MINIMUM PLAN CONTENTS

Site Utilization Map: The site utilization map shall be drawn at a scale no smaller than 1"=100' and shall show the location of the site and the relationship of the proposed project to existing surrounding uses. Aerial photographs may be used if features are properly labeled. The map shall indicate the proposed project site plan and all of the following items within a 300-foot radius of the project site:

- North arrow oriented towards the top of the sheet.
- All parcel lines.
- Streets (right-of-way, frontage street improvements, utility lines and drainage facilities).
- Location and use of all structures and features.
- Adjacent access and circulation.
- Existing zoning and land use.
- Existing agricultural wells

Site Plan: The site plan shall be drawn to an engineering scale no smaller than 1"=50', with the scale clearly labeled, and shall include the following minimum information:

- Name and address of developer, owner of record, and person who prepared the plan.
- Date of preparation and/or revisions.

- Precise legal description. Submit preliminary title report within last 30 days.
- North arrow oriented towards the top of the sheet and a legend identifying any symbols.
- Property lines and dimensions.
- Plan needs to call out/illustrate paths of travel.
- A vicinity map showing the precise location of the project.
- Nearest cross streets on all sides of the project site, with approximate distances from the site.
- Show adjacent streets (distance from centerline), cross sections, and right-of-way width, including existing width and area proposed to be dedicated.
- Dimensions and nature of all easements.
- Street improvements (existing and proposed), including curbs, gutters, sidewalks, water lines, mains, conceptual water and sewer laterals from main to property line, utility poles, fire hydrants, street lights, and street trees.
- Location of existing and proposed buildings and structures (with finished grades).
- On-site drainage pattern by showing drainage arrows with % slope.
- Improvements on adjacent properties within 100 feet, of the subject site (with finished grades).
- Site Plan shall include a note that reads "Site Plan shall meet all Engineering & NPDES requirements".
- Parking layout, including stall size and location, back-up areas and drives, driveway approaches, curb cuts, pedestrian access, utility vehicle access and secondary access points (if deemed necessary).
- Show the location of all ADA pedestrian paths of travel, including necessary ramps for building access and to accommodate changes in grade.
- Handicap parking spaces.
- Loading zones.
- Location, height, and composition of walls and fences (existing and proposed).
- Location of refuse areas, including wall and fence heights and materials.
- Location of any outdoor storage areas.

- Setback distances, yards, and building separations.
- Landscape areas (shaded).
- Location of all existing trees. Identify whether the trees are to be preserved, relocated or removed.
- A tabular summary, including the following information:
 - A.** Adjusted gross and net acreage;
 - B.** Gross floor area per building and total floor area for all buildings;
 - C.** Proposed density (dwelling units per adjusted gross acre for residential subdivisions and floor area ratio for commercial and industrial subdivisions);
 - D.** Lot coverage ratio (percentage of site covered by buildings or structures);
 - E.** Floor area ratio (total floor area divided by the site area)
 - F.** Landscape coverage ratio (percentage of lot covered by landscaping);
 - G.** Number of unit types, unit area by type, number of bedrooms, number of stories and number of units per building (as applicable); and
 - H.** Required and proposed number of parking spaces (covered, uncovered and handicapped accessible, as applicable).
- If the project is to be phased, indicate the limits of the phasing and all off-site improvements to be constructed with each phase. All project phasing must be disclosed at the time of initial application submittal and review. A phased project that is not disclosed up front may require the filing of a supplemental application ("Modification"), with appropriate fees to defray costs associated with additional City review and expenses.

Floor Plan: Floor plans shall be drawn to an architectural scale no smaller than 1/16"=1'-0" for commercial and industrial projects and 1/8"=1'-0" for residential projects, and shall include the following minimum information:

- Interior layout and dimensions of all levels.
- Finished floor elevation of ground floors.

Roof Plan: Roof plans shall be drawn to an architectural scale no smaller than 1/16"=1'-0" for commercial and industrial projects and 1/8"=1'-0" for residential projects, and shall include the following minimum information:

- Type of roofing material and direction of roof slope.
- Location of skylights, roof access and smoke hatches, and access ladders.
- Location of photovoltaic panels.
- Location of gutters, downspouts, and scuppers, as applicable.

- Location of parapet walls and roof-mounted screens.
- Location of all roof-mounted mechanical equipment and appurtenances, and equipment screens.

Exterior Building Elevations: Building elevations shall be of sufficient size to show architectural detail and, generally, shall be drawn to an architectural scale no smaller than 1/16"=1'-0" for commercial and industrial projects, and 1/8"=1'-0" for residential projects. The building elevations shall include the following minimum information:

- Illustrative elevations of all sides of all buildings and structures.
- All building materials labeled on each sheet of the elevations.
- Proposed building colors labeled on each sheet of the elevations.
- Heights of all structures.
- Conceptual sign locations, sizes and type.
- Elevations of all walls and fences.
- Cross sections and enlargements of architectural elements or details, as needed.
- Screening treatment for HVAC units (include a cross section if necessary).
- Provide building floor plan section that corresponds with elevation below each of the elevations to illustrate articulation.

Conceptual Sign Plans: Building elevations and individual elevations shall be of sufficient size to show sign details and, generally, shall be drawn to an architectural scale no smaller than 1/16"=1'-0" for commercial and industrial projects, and 1/8"=1'-0" for residential projects. The Conceptual Sign Plan shall include the following minimum information:

- Include on the Exterior Building Elevations or on a separate plan, the proposed locations of all wall-mounted signs (including address numbers), light bands, murals and all other proposed graphics, as applicable.
- Include on the Site Plan, the proposed locations of all freestanding signs, including monument signs, menu boards, freeway signs, and directional signs, as applicable.

Preliminary Water Quality Management Plan (PWQMP): Prepare a PWQMP for the project using the City of Ontario form provided by the Engineering Department, which may be downloaded from the following web page:
<https://www.ontarioca.gov/Engineering/FormsApplications>.

Conceptual Grading/Drainage & Preliminary Water Quality Management Plan (PWQMP) Compliance Plan:

The conceptual grading/drainage and PWQMP site plan shall be drawn to an engineering scale no smaller than 1"=30', with the scale clearly labeled, and shall include the following minimum information:

- Show proposed grading, including buildings and structures, curbs, walls (height), gutters, pavement, drainage structures, swales, mounding/berming, slopes, open space and trails, distances, spot elevations, gradients, contours, cross sections, flow arrows, etc.
- Show existing grading, including buildings and structures, curbs, walls (height), gutters, pavement, drainage structures, swales, mounding/berming, slopes, open space and trails. All existing items/conditions shall be designated with short dashes or screend.
- The maximum contour intervals shall conform to the following:

<u>Slope:</u>	Less than 2%	2% to 9%	Over 9%
<u>Interval</u> :	2 feet	5 feet	10 feet

- Existing features within 100 feet beyond site boundaries, including natural ground (contours), trees, buildings and structures, drainage courses, drainage facilities (type and size), streets, trails, open space, slopes, etc.
- Show all site design features (BMPs) proposed for the project to address water quality concerns. Show the types, size/dimensions, and location of all proposed BMPs described in the PWQMP.
- Show contours and spot elevations.
- Location of existing and proposed utilities/facilities (sewer, water, telephone, electricity, storm drain and cable TV).
- Provide cross sections at all site boundaries, to scale, showing existing and proposed grading, cut versus fill conditions, wall heights (including retaining walls) and elevation differences (maximum and minimum conditions) between off-site structures and those on-site. Sections should extend through building pads and streets.
- Location and dimensions of proposed pervious or landscaped areas after building and paving.
- Proposed drainage facilities to convey storm water runoff into proposed or existing pervious or landscaped areas.
- Proposed infiltration structures (e.g., vegetated swales, landscaped retention basins/trenches, dry wells, pervious pavement, underground chambers, etc.) to comply with the City's MS4 Permit requirements.

- Proposed treatment devices (e.g., gravity separators, drain inlet filters, etc.).
- Buildings and structures, indicating footprints, pad and floor elevations, retaining walls, stem walls, etc.
- Drainage and flood control facilities (type, size, etc.).
- Location and dimension of easements, property lines and rights-of-way.
- Natural areas to be preserved (undisturbed; no grading to take place).
- Retaining walls (top and footing elevations).
- Shade pavement and slopes greater than 3:1.

Utility Systems Map (USM): The Utilities Systems Maps shall show all existing and proposed Utilities (Potable Water, Recycled Water, Sewer, Storm Drain, and other utilities) including each of the City's public utilities' points of connection to the existing systems. This plan shall include:

- Format**—The USM shall be drawn at a minimum 1:100 scale (or large engineering scale as appropriate to show needed details) that clearly shows each existing and proposed utility and its relative location. This includes property lines, right-of-way, public utility easements (PUEs), but should not include underlying existing topography, just proposed general grades. Use appropriate colors for each Utility type: blue for Potable Water; purple for Recycled Water; green for Sanitary Sewer; yellow-brown for storm Drain.
- Services and Laterals**—Show all proposed utility service laterals for each parcel (potable water domestic, recycled water irrigation, potable/recycled water for process water, and sewer) and any associated appurtenances.
- Meter and Backflow Device Locations**—Show all proposed meters and required backflow devices located per City standards (Water Services and Meters; Backflow Devices). Meters shall be located in a public right-of-way or PUEs, either at the right-of-way (or PUE) line for curb adjacent sidewalks or at back of curb for all other cases. All water connections that serve more than one residential unit are required to have a backflow device installed behind the meter.
- Cross Sections (for project construction of new public mains, if applicable)**—Provide cross sections, to scale, showing the utility layout on the USM for each public street, private street, and PUE. The cross sections shall show the location and size of each utility and annotate the property/right-of-way lines, the type of finished surface material, the distance of each utility from centerline, the depth from finished surface to top of pipe, and the distance between utilities (outside wall to outside wall).
- Points of Connection**—Show the locations of the points of connections to the existing utility systems, which can include breaks between the map area and the connection points with descriptions of the pipe size,

type, use (pressure zone for water), and distance. An inset map can be used in addition to this to help provide clarity.

Water Demand Table (for projects within Ontario Ranch, if applicable)—Add a Water Demand Table to the Utility Systems Map (Utility Plan) that calculates the project's domestic water use based on land use category (residential, commercial, and OS-R/Parks) and the number of units. The table shall state demand in terms of Average Daily Demand (ADD from Table 4-8 of the Water Master Plan) and Water Demand Equivalents (WDE/Net MDD from Exhibit C-2R of the NMC Construction Agreement; WDEs only if NMC). It should also identify the quantity of units in each category and the specific lots that are included in that category. (*Note:* that master planned lines are designed using gross acreage densities for all projected water use from residential categories.)

Phasing Plan (if applicable)—As separate exhibits, provide a proposed phasing plan showing the phasing of the infrastructure and the number and type (The Ontario Plan Policy Plan (general plan) land use category) of units in each phase.

Private On-Site Systems Versus Public Systems within Public Utility Easements (for residential development projects)—The following requirements apply when delineating between private and public systems:

A. Current Standard Drawing No. 1304 remains applicable and minimum health separation must be met.

B. Public water mains will be accepted in longer alleys when it serves more than 6 meters.

C. Public sewer mains will be accepted in alleys where the water is public.

D. Public dead-end water mains will require a blow-off at the end and the alley should be designed to accommodate runoff from required water main flushing operations.

E. Public sewer mains in alleys will require a manhole at both ends of the main.

F. Public meters serving more than one single-family dwelling unit are considered as multiple-family service with master meter and require a backflow device after the meter, private homeowners association sub-metering for each unit, and a separate fire service with a double check detector assembly (DCDA) to provide private on-site fire service.

Conceptual Landscape Plan: The conceptual landscape plan shall be drawn to an engineering scale no smaller than 1"=50', with the scale clearly labeled, and shall include the following minimum information:

Conceptual location of trees and landscape planter areas (minimum 5 feet wide) and a plant legend which identifies trees, shrubs and groundcover. Indicate the intended function of plants (e.g. accent

trees, street trees, canopy shade trees, screening hedge, etc.).

Water elements and public art.

Plan needs to call out/illustrate paths of travel.

Proposed site utilities such as lights, transformers, power poles, backflow devices, etc.

Existing tree locations identifying genus, species, and trunk caliper.

Turf areas and edge restraint identified. Warm season turf is allowed only in recreational areas and single family home projects.

Berming and/or mounded areas, swales and/or basins indicating height, width and depth.

Plazas, sidewalks, and other hardscape elements, such as special paving materials and rockscape.

Walls and fences, and their materials and height.

Location and design of community amenities and a legend which identifies such things as:

Common or public open space/recreation areas.

Tot lots, barbeque areas, pools/spas, recreation buildings, sports courts, etc.

Primary and secondary project entry points and their treatments.

Solid Waste Handling Plan (SWHP): The SWHP shall meet the following requirements:

SWHP Content and Format—The SWHP shall demonstrate compliance with the Services Standards in the City's Solid Waste Planning Manual (available online at: <http://www.ontarioca.gov/government-departments-municipal-utilities-company/integrated-waste>) and shall contain, at a minimum, the following elements:

A. A statement identifying the Service Requirements being used (e.g. Single Family Detached with automated cans, Multiple-Family/Commercial/Industrial with bins and enclosures, etc.) and describing the solid waste handling operation (*for instance, will there be scouting services, etc.*).

B. A table utilizing the metrics on Page 8 of the Planning Manual and calculating the volume (gallons or cubic yards), quantity, and service schedule for each type of can and bin required for each Service Category (refuse, recycled, etc.).

C. An Engineering Site Plan drawn to scale that shows:

(a) Minimum plan scale of scale of 1:100. Larger scales are preferred and should be scaled to fill the sheet and show as much detail as clearly as possible on one sheet; multiple sheets may be

used if entire project area cannot fit on one sheet at 1:100 scale.

(b) A detail of the Solid Waste Vehicle with dimensions and annotation that states the minimum turning radii and path of travel widths actually being used on the plan.

(c) The Solid Waste Vehicle turning movements and paths of travel in each direction of travel and at all intersections. All paths of travel shall be 15 feet wide minimum.

(d) All parking stalls and parallel parking spaces along all streets, alleys, or aisles.

(e) All proposed curbs and areas designated and striped/signed as "No Parking."

(f) All proposed trash enclosures and the ADA paths of travel from the buildings.

(g) A detail for each enclosure footprint delineating the number and size of the bins in order to demonstrate that the enclosure is adequately sized and oriented, if enclosures and bins are proposed.

(h) All proposed locations of automated cans shown as a 26" X 26" can pad with 20" between can pads and 40" between can pads and parking spaces, mailboxes, and other obstructions (Can Collection Area). Can Collection Areas shall be located along designated paths of travel and cannot be located along dead end alleys, motor courts, driveways, or private streets; use multi-family standards for enclosures in these cases.

Can Collection Area (CCA) Locations for Residential Projects—If CCAs are being proposed in lieu of bin enclosures for residential units located along dead end alleys, motor courts, driveways, or private streets, then the SWHP shall comply with the following requirements:

A. CCAs cannot conflict or compete with potential parking areas. Proposed CCAs must be designated as "no parking" at all times with appropriate striping and signage.

B. Each residential unit must have a designated CCA and each CCA must delineated with markings so that its location and the unit it is designated for are easily identifiable.

C. Solid Waste Handling Plan shall include a detail showing how the CCAs will be delineated and identifiable.

Private Third Party Hauler—If any Solid Waste Collections are going to be provided by a private third party hauler, include on the SWHP:

A. A statement describing the service.

B. The names, contact information, and City of Ontario Commercial Recycler Collection Permit

numbers of all private third party haulers. (*Note: all private third party organics and recycling haulers must be formally approved and permitted by the City of Ontario and meet City Code requirements, otherwise the City must provide the collection services.*) If the third party haulers do not have a City of Ontario Commercial Recycler Collection Permit, state if the third party hauler is charging a fee for service.

C. Show & label staging and collection areas for private third party haulers.

Integrated Waste Management Report (IWMR): The IWMR shall meet the following requirements:

The IWMR shall address the management of all integrated waste (Refuse, Recycling, Organics, etc.) including, but not limited to: types of waste generated, amount of waste expected and the corresponding sizing of receptacles, all waste diversions, all staging and collection operations, any use of private haulers, and the property management regulations and practices for the site.

The IWMR shall demonstrate compliance with the latest version of the City's Integrated Waste Planning Manual (available online at: <http://www.ontarioca.gov/government-departments-municipal-utilities-company/integratedwaste>) as well as the applicable State regulations and shall contain, at a minimum, the following elements:

A. A discussion on the types of waste generated (refuse, recycling, green waste, organics, etc.) by all uses on the site and the generation rates and total waste for each type. If a final use is not known the applicant shall make a reasonable assumption of the land use expected or proceed as directed by the City.

B. A discussion on pre-treatment if the project will be required to use and install pre-treatment devices or services and an exhibit showing and labeling the location of the pre-treatment devices.

C. A discussion on the types of City Services that will be utilized and the sizing and number of receptacles (Bins, Compactors, etc.)

D. A discussion on waste that is diverted and the diversion services that will be used.

E. A table utilizing the metrics on Page 8 of the Integrated Waste Planning Manual and calculating the volume (gallons or cubic yards), quantity, and service schedule for each type of can and bin required for each Service Category (refuse, recycled, etc.). The table shall include all waste that is diverted and the diversion service(s).

F. An exhibit(s) showing layout and architectural details for enclosures, compactors, roll-offs and nonstandard containers proposed by the project. Include specification "cut" sheets for non-standard containers.

G. A discussion on the staging and collection operation and an exhibit identifying these locations on the site and any other relevant details. The discussion shall address circulation, accessibility, ingress, egress, pavement type, parking, the role of the property management association, and the role of private haulers or scouting services.

H. A discussion on private haulers describing their services and supplying the names, contact information, and City of Ontario Commercial Recycler Collection Permit numbers for each hauler. The discussion shall include an exhibit showing the staging and collection areas for private haulers. (**Note:** All private third party organics and recycling haulers shall be formally approved and permitted by the City of Ontario and shall meet City Code requirements, otherwise the City shall provide the collection services.) If the third party haulers do not have a City of Ontario Commercial Recycler Collection Permit, the discussion shall state whether the third party hauler is charging a fee for service or not.

I. A discussion on the proposed property management association, their role in the integrated waste management plan for the site and the by-laws and regulations that relate to integrated waste (no parking, solid waste collection day coordination, enforcement of the SWHP, etc.).

J. A discussion on any variances that are requested and the need for the variance along with any relevant exhibits.

K. Appendix: A copy of the Final Solid Waste Handling Plan (See the SWHP requirements).

L. Appendix: All exhibits and standard plans proposed for the project.

M. Appendix: A copy of the proposed association by-laws and regulations.

N. Appendix: A copy of the final Integrated Waste Variance Form (if a variance is requested).

Tentative Tract and Parcel Maps: A Tentative Tract or Parcel Map shall be drawn to an engineering scale of 1"=50'. Other engineering scales may be accepted with prior City Engineer approval. The map shall include the following minimum information:

- Name, address and phone number of the applicant, engineer and/or architect, as well as any soils engineers or geologists whose services were utilized in the preparation of the project.
- Date of preparation and/or revisions.
- Precise legal description.
- North arrow oriented towards the top of the sheet and a legend identifying any symbols.
- A vicinity map showing the precise location of the project.

- A tabular summary, including the following information:
 - A.** Gross and net acreage;
 - B.** Proposed density (for residential subdivisions);
 - C.** Minimum and average lot area;
 - D.** Minimum lot dimensions (width and depth) for interior and corner lots; and
 - E.** Assessor's parcel numbers.
- Nearest cross streets on all sides of the project site, with approximate distances from the site.
- Boundary of Tract/Parcel map with heavy lines (sometimes referred to as "blue border").
- Property lines and dimensions.
- Each lot/parcel shall be numbered. Common lots shall be lettered.
- The area/size of each lot/parcel shall be noted.
- Names of all public streets and their right-of-way width.
- Location and identity of all existing easements, with names of holder and recording information, and location and purpose of all proposed easements.
- Location and identity of adjoining tracts, other maps of public record, streets, and other public right-of-way.
- Dimensions and bearings, with precision compatible with data from which map was prepared, of boundary, proposed centerlines of street easements and dedications.
- Location and identity of any structures or obstructions within the proposed land subdivision and any significant topographical features inside the boundary or within 200 feet of the boundary, including existing water lines, sewer lines, drainage courses, railroads, driveways and the like.
- Layout of proposed streets (public and private), alleys, and other areas offered for dedication to public use. Streets and alleys shall be shown with approximate grade and general drainage pattern.
- Typical cross sections of all existing and proposed streets, alleys and easements, including railroads.
- Contour lines with intervals of 5 feet or less to indicate terrain and drainage pattern of the area. Existing contours should extend a minimum of 50 feet past the map boundary.
- Location, size, and approximate grades of proposed sewer and storm drains.
- Location of existing and proposed utilities/facilities (sewer, water, telephone, electricity, storm drain, street lights, cable TV, and City-owned fiber optics).

- Location and description of all existing structures within the subdivision boundary.
- Location of existing trees, specifically noting trees with a trunk diameter of 4 inches or greater.
- Location, height and materials of existing and proposed walls and fences, including height of retaining portions of walls.
- If the map is to be phased, indicate the limits of the phasing and off-site improvements to be constructed with each phase. All project phasing must be disclosed at the time of initial application submittal and review. A phased map which is not disclosed "up-front," will require the filing of a supplemental application ("Modification"), with appropriate fees to defray costs associated with additional City review and expenses.
- If a parcel map waiver is requested or if the subdivider desires to submit a map not based on a field survey, the tentative map shall show information from which it can be determined that sufficient survey information exists on filed maps to locate and retrace exterior boundaries of the map and that at least one boundary line is a line between 2 existing monuments of record.

Conditional Use Permit: The site plan shall be drawn to an engineering or architectural scale, with the scale clearly labeled, and shall include the following minimum information:

- Name and address of applicant, owner of record, and person who prepared the plan.
- Date of preparation and/or revisions.
- North arrow oriented towards the top of the sheet and a legend identifying any symbols.
- Property lines and dimensions.
- Plan needs to call out/illustrate paths of travel.
- A vicinity map showing the precise location of the project.
- Nearest cross streets on all sides of the project site, with approximate distances from the site.
- Location of existing and proposed buildings and structures.
- Improvements on adjacent properties within 100 feet, of the subject site .
- Parking layout, including stall size and location, back-up areas and drives, driveway approaches, curb cuts, pedestrian access, utility vehicle access and secondary access points (if deemed necessary).
- Handicap parking spaces.
- Loading zones.
- Location, height, and composition of walls and fences (existing and proposed).

- Location of refuse areas, including wall and fence heights and materials.
- Location of any outdoor storage areas.
- Setback distances, yards, and building separations.
- Landscape areas (shaded).
- A tabular summary, including the following information:
 - A.** Gross and net acreage;
 - B.** Gross floor area per building and total floor area for all buildings;
 - C.** Total floor areas for each room.
 - D.** Lot coverage ratio (percentage of site covered by buildings or structures);
 - E.** Floor area ratio (total floor area divided by the site area)
 - F.** Proposed Hours of Operation.
 - G.** Number of Employees (full/part-time).
 - H.** Required and proposed number of parking spaces (covered, uncovered and handicapped accessible, as applicable).

ADDITIONAL SUBMITTAL REQUIREMENTS

Wireless Communications Facilities: The following information shall be provided with any application for approval of a wireless communications facility:

- A master plan showing the location of all existing and proposed antennas within the City of Ontario, which are in use, or are proposed for use, by the service provider.
- Collocation information (to be submitted with all applications):
 - A.** Evidence that collocating on an existing site is not feasible;
 - B.** Copy of lease agreement or affidavit signed by owner and applicant as evidence that lease is non-exclusive; and
 - C.** Evidence that the submitted design will not preclude the co-location of additional users.
- Specific information about proposed facility, including type (i.e. cellular, PCS, paging, etc.), broadcast frequency, height, maximum capacity, and coverage area.
- One (1) copy of the service provider's FCC license agreement.
- Verification of compliance with FAA requirements. FAA Determination must be submitted at time of submittal.

- Completed Climate Action Plan (CAP) Greenhouse Gas Emissions CEQA Thresholds and Screening Tables for new development.

Additional Plans and Information: Any of the following items may be required, based on further review of the application:

- A **Preliminary Title Report** may be required for those projects where the legal establishment of the project site cannot be determined.
- A **Biological Assessment** will be required for those projects that may result in a negative change in the diversity or number of any unique, rare or endangered species of plant, animal or habitat.
- An **Air Quality Study** will be required for those projects that exceed the thresholds established within the SCAQMD CEQA Handbook.
- A **Parking Study** will be required for those projects proposing a reduction in parking based upon shared parking or low demand.
- A **Preliminary Drainage/Hydrology Study** will be required for those projects that would result in a substantial increase in storm water runoff or the project is proposed where an insufficient capacity for storm water runoff currently exists.
- An **Acoustical Analysis/Noise Study** will be required for those projects that would result in the exposure of persons to, or generation of, noise levels in excess of standards established in the general plan or noise ordinance, or applicable standards of other agencies.
- A **Traffic Study** may be required if:
 - A.** The project adds 100 or more new two-way peak hour trips to an intersection. Projects could include, but are not limited to, the development of 100 or more single-family residential dwelling units, 160 or more multi-family residential dwelling units, 27,000 or more square feet of shopping center space, 125,000 or more square feet of industrial space or 70,000 or more square feet of office space.
 - B.** The preparation of a traffic study is warranted due to the size and nature of the project, or to address specific circulation, parking and/or neighborhood issues.
 - C.** On phased projects to determine the construction timelines for required on and off site street and traffic improvements

- A **Traffic Impact Analysis (TIA)** will be required when the trip generation for a project or group of projects is forecast to equal or exceed the County of San Bernardino Congestion Management Program (CMP) thresholds (250 two-way peak hour trips for residential and non-retail land uses or 1,000 two-way peak hour trips for retail land uses or a weighted average for mixed-use developments), based upon trip generation rates published in the Institute of Transportation Engineers Trip Generation Manual or other CMP-approved data source. The CMP is available on-line at www.sanbag.ca.gov.

A CMP-TIA could be required if the following listed thresholds are met or exceeded:

Single-Family Residential.....	250 DUs
Multiple-Family Residential.....	400 DUs
Hotel.....	400 Rooms
Hospital.....	270,000 SF
Light/Heavy Industrial and Industrial Park.....	250,000 SF
Manufacturing.....	335,000 SF
Warehouse.....	490,000 SF
Shopping Center.....	250,000 SF
Specialty Retail Center.....	385,000 SF
Business Park.....	170,000 SF
Office Park.....	140,000 SF
General Office Building.....	160,000 SF

The above thresholds provide initial guidance in determining whether or not a CMP is required. Because the list does not cover all possible land use proposals, the final determination will be made based upon a trip generation analysis prepared by the applicant and submitted to the City of Ontario. CMP-TIAs will not be required for projects within previously approved specific plan or general plan areas, provided that the plan has an approved CMP-TIA and the proposed land use(s) have not changed.

- An **Arborist Report** may be required for those projects that would result in the removal of existing trees with a trunk 4 or more inches in diameter. The report shall assess the health and viability of the trees and suggest appropriate mitigation for their removal.
- Any **Other Plans or Information** that the Planning Director deems necessary to facilitate processing of the application.

MINIMUM PLAN CONTENTS CHECKLIST ACKNOWLEDGEMENT

I, the undersigned, hereby certify that the plans and information provided, present all of the data and information required by the Minimum Plan Contents Checklist, and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief. Furthermore, I understand that failure to provide the plans and information required by this checklist may result in my application not being accepted as complete for filing.
